

We Model What We Value

### Spanish

Our Spanish unit is called 'Presenting Myself'. The pupils will consolidate basic greetings and learn how to present themselves further by asking and answering questions in Spanish.

### PE

On Mondays we will complete basketball with Mrs Collis.

On Tuesdays we will complete PE lessons with our class teachers. Red Panda Class will complete their swimming lessons instead.

### PSHE

This term we think about "Celebrating Difference." We will think about how being different can impact someone's life.

### Art

This term we are combining all of our artistic knowledge to create and complete our own self-portraits.

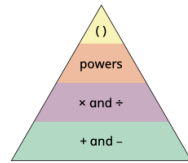

## Year 6 Curriculum Term 2

### Maths

Multiplication and Division will be our first unit after half term. The children will be introduced to long division and learn how to use this efficiently, even with remainders. The children will learn about the order of operations and understand the importance of completing calculations in the correct order. Our next unit will be fractions

$$\frac{2}{3} + \frac{1}{9} = \square$$

$$\frac{5}{6} - \frac{3}{4} = \square$$

$$2\frac{3}{5} + 1\frac{1}{2} = \square$$

### English

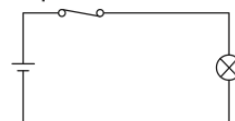

We will explore 3 different genres of writing this term. The first will be a formal, persuasive letter that will require the children to consider their audience carefully. We will also write a personal letter from the point of view of an evacuee during World War 2 which will use our history learning. We will end the term with a narrative that focuses on dialogue.

We will continue with our Class Text of 'Our Castle by the Sea'. The children are excited to find out what happens next!

We will use our Extract Reading lessons to continue exploring a range of texts, including song lyrics, novels and adverts.

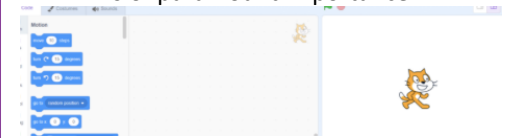

### Science

This term's topic is electricity. The children will build upon their prior learning of circuits to draw and make their own. The children will use their knowledge to predict if a circuit will work and explain the reasoning.

### Computing

We will be programming using Scratch in our computing lessons this term. In addition, there will be an cyber-bullying week where we will consider how e-safety is of paramount importance.

### RE

Our focus religion will be Christianity. Our big question is: Do Christmas traditions help Christians understand who Jesus was

### History

Our World War 2 day introduced concepts such as rationing and the role of women in WWII. We will explore these in further detail in term 2. We will introduce Operation Dynamo and understand the role Dover Castle played during this.
